## **What are Aura Sprays?**

Relax and renew yourself and your environment with the comforting fragrance and healing essences of **featherhawk** Aura Sprays. These specially formulated blends of essences and 100% pure essential oils restore balance, relieve daily stress, and refresh and rejuvenate your Home, Work and Play space!

Use these wonderful sprays to...

- Clear stagnant and imbalanced energies from your energy field
- Refresh and cleanse your environment - bedroom, living room, office
- Restore calm and order to your busy life
- Balance and harmonize your surroundings (great for space clearing and Feng Shui work)

## **How are Aura Sprays used?**

***On your body...***

- Spray a few spritzes above your head (3 or 4 is sufficient) and allow the mist to fall gently into the energy field around your body.
- Close your eyes and spritz your face. The new 1 oz size is convenient for airplane carry-on and is both moisturizing and calming.

- Spray the bottoms of your feet for grounding. One spritz per foot works great, with or without shoes.

### ***In your space...***

- Spray in any room to lighten the energy and dispel distorted or unclear energies. If the room feels especially uncomfortable, spray every corner (at floor level and up towards the ceiling), the doorway, the center of the room, and anywhere you feel it's needed.
- Spray your office between clients to clear and energize the space.
- Before going to bed, spritz your pillow and/or sheets.
- Use in your garden or backyard as you are guided.

### ***With your animals...***

- Spray a few spritzes above the head or back of your animal companion (3 or 4 is sufficient) and allow the mist to fall gently into their energy field.
- Spray a spritz or two where your companion animal(s) sleeps.
- Spray the bottoms of their feet for grounding. One spritz per foot works well.
- **DO NOT SPRAY DIRECTLY ON CATS** – cats are sensitive to the essential oils, even though there are only a few drops in each bottle. It is safe to spray their sleeping area or the room they are in. Be sure the area has dried before allowing the cat to step or sleep where you sprayed.
- **Heaven on Earth** has proven particularly helpful for calming dogs.

**Black Tourmaline** *Encourages the transformation and letting go of toxic energies throughout the Whole of You --- body, mind, soul, and emotions. Fills any resulting voids in your energy field with clear, neutral energy and vitality. Keeps you very grounded and present, able to shield yourself from toxic thoughts and substances in your environment.*

**Eagle** *Focus; helps you discern the next step when you see numerous possibilities yet feel unsure about where to begin. Like the Eagle sighting its prey and becoming totally focused, all distractions fall away and you KNOW the next step to take. Expand beyond the limitations of the physical plane and into the Whole of You, a place you may be unfamiliar with; trust the urge to unfold and embrace your wholeness. Eagle helps you hear your sound on the wind and identify your calling. For discovering your life path, one step at a time.*

**Crow** *Embrace and expand Sacred Law to create transformation. For joyous participation in life, especially in community with others. Crow protects the electronic transfer of information (phone, cell, fax, modem, cable), and frees your mind from the accumulation of "symbol language" in the Mental body that can occur working with electronics. To clear your phone line, cell phone, computer or other electronic equipment, take Crow essence, write "Crow" on a sticky note and stick it on the equipment, and invoke the energy of Crow.*

**Octahedron** *Expresses the element of Air. This is the atmosphere of ideas, dreams, thoughts, and reason that permeates your inner landscape. Brings balance to the*

mind and encourages the mind/ego to acknowledge the heart as leader while valuing its own ability to "do." Repairs, rebuilds and restores the Octahedral matrix in and around the Whole of You.

**Gypsum** Allays the tension of the outer quest by linking the conscious mind with the inner mystic.

**Malachite** Assists in clearing natural and man-made radiation, including computer radiation, from the Whole of You and your immediate environment. This is a good stone to have between yourself and your computer. Balances the whole brain; opens the heart stimulating empathy and compassion. Supports unity of being. Restores balance to sight in the physical, mental and spiritual realms. If sight in one is distorted, sight in all will be unclear.

**Pyramid** *Express words and actions with fire and passionate detachment. Commit intelligently to your goals, while letting go of your expectations so Creator can surprise you. Pyramid means “fire in the midst,” a flame of purification and initiation that burns deep in the center of you.
