

# *featherhawk* Soul & Ego Set™

**SG00 9 cobalt blue 1/2 oz dropper bottles \$81.66**

The **Soul & Ego Set** (formerly the Creativity & Ego Set) is made up of a select group of essences from the Sacred Geometry Series, including the five Platonic Solids (Tetrahedron, Cube, Octahedron, Dodecahedron, and Icosahedron).

Collectively, our most important work now is to move into our heart space and know the love that we are. The **Soul & Ego Set** helps us move into our heart space and restore wholeness and balance to the foundational geometries surrounding our physical and subtle energy bodies. This aids relaxation, reduces stress, initiates peacefulness, and expands consciousness.

If you are familiar with the Flower of Life\* teachings and the MerKaBa, these essences can help you focus on the work of the meditation.

Re-integrating and unifying Soul & Ego and Inner Female & Inner Male is crucial to our continuing evolution. These energies meet in our heart, restoring wholeness to our Earthly experience as they ground our highest spiritual Self into our human existence --- with grace. As this occurs, we come to know the true meaning of the words, "...on Earth as it is in Heaven." This is the gift of the Soul & Ego Set.

These essences are also a wonderful adjunct to walking the Chartres Labyrinth, either on the Earth, on a piece of paper or on another portable form. There is a copy of the Chartres Labyrinth at the end of this document.
