HC0 9 cobalt blue 1/2 oz bottles

\$62.00

Bear, Black-eyed Susan, Chrysocolla, Golden Mean Harmonic, Green Tourmaline, Rhodochrosite, Sacred Heart, The Waiting Heart, and Wild Tobacco Seed

The Heart Collection came together with the intention to nourish your Heart center and help you resolve issues of the Heart with grace and ease. This set assists you in recovering from grief and loss, perhaps due to separation, divorce, or the death of a loved one.

The essences also help you recover from the loss of your job or home, lowered self-esteem or self-respect, giving up an old habit or pattern, or letting go of “old stuff” you’ve been carrying around for months or a lifetime, and anything else you feel affects your Heart.

Although it seems counter-intuitive, the Heart can also feel stressed when you fall in love, experience excitement and ecstasy, even if you get a new puppy or find your soul’s work. These joyous events can throw you off balance as easily as the “bad” stuff! Reclaiming your center and reconnecting with the power and intelligence of your Heart gives you stability and grounding and clarifies your thinking and actions.

The Heart Collection helps heal your relationship with yourself, your family and other loved ones, business associates, even your animal companions and your local and global environment. Any area of your life where Love is missing will be honored and supported by these remedies as you remember how to know, accept and share your heart freely.

Waiting Heart, The Allows your mind time and space to acknowledge, then release, fear and other related emotions that may be holding you back. Fear in particular is a very convincing invention of the mind. When you experience fear, your physical and subtle bodies contract around your Heart as if to protect it. In response, your Heart, which is much wiser and possess far greater courage than your mind, expands out to enfold and protect you. Then it waits, patiently, for the mind to restore peace within itself. As the mind and Heart become true partners, and as the mind comes to understand the Heart as the wiser and more capable leader, fear dissipates and confidence grows.

NB8 1/2 oz..... \$10.99

Wild Tobacco Seed The seed of confidence and assertiveness. Connect with your true inner being and nurture your potential so it germinates and grows. A "bubbling up" of joy and light clears mental over-activity and frees untapped resources of energy. Boosts the immune system.
