Weeds & Seeds embodies and nourishes the energy of scrappiness, survival and stick-to-it-iveness that we are seeing these days all around the world.

"They know, they just know where to grow, how to dupe you, and how to camouflage themselves among the perfectly respectable plants, they just know, and therefore, I've concluded weeds must have brains."

- Dianne Benson

"Life does not accommodate you, it shatters you. It is meant to, and it couldn't do it better. Every seed destroys its container or else there would be no fruition."

- source unknown

People everywhere, in all nations, cultures and walks of life, are striving to restore and maintain balance and harmony in their lives, and to create a future for themselves, their families, and their communities under trying of circumstances. And we are succeeding! The remarkable human spirit gives us the drive to pull together, endure, and expand into our true wholeness and self-expression.

Life, as expressed in human beings and all other aspects of nature, perseveres through the best and the worst of times. Accidents and injuries leave people broken in mind and body, yet they find a spark of hope and light inside and, with great effort and commitment, create a new life for themselves.

Plants push their way up through concrete and asphalt or sprout in the seemingly impossible crag of a rocky mountainside or a fire-ravaged landscape. The inexorable power of recent natural disasters — floods, windstorms, volcanic eruptions, tornadoes, hurricanes, tsunamis, and earthquakes — show us the amazing capacity of Nature to wreak havoc on our well-planned-out lives. They also show that Life, in all its forms, WILL carry on in spite of the most overwhelming of circumstances.

The Weeds & Seeds set captures these qualities of tenacity, spunk and determination. Weeds reflect our exteriority, the macrocosm, the outer influences, the "above" of us. Seeds reflect our interiority, the microcosm, the inner influences, the "below" of us.
